Dear High Peak Borough Council,

The Town and Country Planning (Development Management Procedure) Order 2015

Proposal:	**The proposal will consist of adding 95 meters of new fencing to create a new space for a forestry school. The fence will be attached to the existing fencing and run along the footpath and will then change directly at 90 degrees roughly and terminate at the existing wall near the playground. The existing double gates will remain in place, providing access from the school to the new forestry area of the school. The new fencing will match the existing fence in style, height and colour.**
Location:	**Fairfield Endowed Junior School, Boarstones Lane, Fairfield, Buxton, SK17 7NA**
Applicant:	**Derbyshire County Council**
Application Code:	**CD1/0225/44**

I received the above planning application (complete as far as the law is concerned) on 19 March 2025. Would you please:

1. Enter it on Part I of the register as received on that date and give it the code number CD1/0225/44; and
2. Let me have your Council's observations within the agreed period of 21 days from today's date.

You can find the documents relating to this proposal at:

https://planning.derbyshire.gov.uk/Planning/Display/CD1/0225/44?cuuid=00B54306-2E35-4456-9767-84B138D0CAD5

If I receive any additional plans or other documents, I shall let you have a copy as soon as possible for inclusion in the register and to assist your Council in forming its observations.

Please could you ensure that any drainage requirements arising out of any function that your authority undertakes on behalf of the Water Company are included in your response.

Yours sincerely,

Development Management
