Submission: Neither

Comments: The building is very close to our back fence but we have no objection to the application as long as there is guttering installed so that rain water running off the roof, which slopes towards our back garden, is prevented from accumulating in the narrow space between our fence and the building back wall. Also we have discussed the covering (disguising) of the visible breeze block wall which is above our existing fence with the applicant, who confirmed that they would render and possible apply trellis.
