Submission: Objection

Comments: My concern is still the height and size of the proposed buildings planned for development on this land. Visually it would not be in keeping with the residential area. The street parking and through traffic on Ashbourne lane is already a problem and with the increase of more vehicles from the business using this road it would create more traffic congestion. There is a children's play area in the vicinity this would also be a concern for their safety . Bats have been sighted near the existing building on the site and we frequently observe bats flying around our house at night, the wild life must be preserved.
