Submission: Objection

Comments: I strongly object to two elements of this proposal.

Firstly, the use of floodlights past the current cut off of 10pm. The houses along Mill Cliff are fully illuminated up until the lights are switched off, regardless of the thickness of blinds/curtains. For adults, this poses less of a problem than for children but even adults should be able to sleep in a darkened room from 10pm at the latest.

Secondly, a greater concern is the proposal to allow events up until 1am. Fortunately late night events at the football ground have previously been very rare. On one occasion, the function room was used up until 2am (on a weekend) and even though my own double glazed windows were closed, I could hear every word the DJ said; he might as well have been spinning decks in my room. Even if late night events were confined to weekends only, Mill Cliff would become unliveable and residents would be forced to move.

Further noting that the football ground is located in an area where there are lots of families with young children, the ability to sleep undisturbed should be sacrosanct.

If you would like to investigate any of the above claims, you would be very welcome to come round to 14 mill cliff at any time to better understand the impact of noise and light pollution on our homes.

Thank you
