Submission: Objection

Comments: I don't feel that the new plans properly address the concerns I raised when the application was first made. The entrance will be opposite my home, it is wider but I still worry that my car will be knocked by vans coming in and out. It is going to be very tight on the new yard and the road is also already very narrow. More traffic along Ashbourne Lane will make it dangerous for kids going to school and the park. None of this has been looked at. The buildings are still very high even though they have been reduced a bit. It has been changed to category E, which is really wide in scope for building usage, this is a residential area and even category E doesn't fit with the residential area. The buildings need to be no higher than what is already there if this goes ahead and the access needs to be looked at properly, not just widened.
