Submission: Objection

Comments: We object to this planning application for the floodlights hours being extended. The light pollution is already disrupting residents' lives; they are having to shut their curtains to block out the light, lighting up their living room and bedrooms which deprives people of sleep and HPBC have a duty of care for the residents. The light pollution is terrible, and lights up my garden all the time it's on so it must be unbearable for the houses nearer to the lights but this isn't been taken into consideration even shining into children's bedrooms. Why does a football club need lights on till 1pm? We were told that we would be informed if anything was happening at the club that could affect the residents but once again it's been done without any consultation with the residents about extending the light pollution due to renting function rooms out that we haven't heard about till now. What's next lights on till 2pm as it turns into a nightclub so they need the lights on for even longer? It's impacting on people's lives, their state of mind and detrimental to the environment, birds etc don't know any more whether it's morning or not and I'm sure more animals are being disturbed by the light pollution already. Keep the football ground as a football ground, this is a residential area and the residents' views are being ignored once again. The floodlights are on long enough now. This must be refused
