Dear Graham,

LOW LEIGHTON GRANGE,
3-5 LANESIDE, NEW MILLS, HIGH PEAK. SK22 4GJ

Further to my report on this property dated 16th November 2018 the area in front of the South Elevation has now been cleared of overgrown trees and bushes and I have been able to make a closer inspection of the elevation.

My advice is revised as indicated on the attached drawing SK3RevA. In addition to the central part of the elevation having to be re-built it is now clear that the outer leaf of the right hand part should also be re-built; the existing inner leaf of this part can be retained.

Yours sincerely
