

Bank Lane Tintwistle SK13 1NQ

Refuse Collection

To avoid the condition: -

No development above foundation level shall commence until a scheme detailing bin storage and waste collection facilities has been submitted to and agreed in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

There are 3 No bins shown on the drawings and in the location which would be easy to relocate on bin days to the edge of the road (boundary of the proposed Dwelling).

Like all the other dwellings on Bank Lane, there are 3 bins:-

- Green - Graden waste and Food
- Brown - Plastic, glass and tins
- Black - Non-Recyclable

Black Bin is collected on a Monday and the following Monday are Brown and Green bins. The bins are collected by High Peak Council, same process for other dwellings on Bank Lane.

Bins are relocated to the edge of the boundary, in this case the access off Bank lane on the Bin collection days and replaced as shown on the drawings the same day.
