Dear sir/madam

Regarding the proposed demolition of existing building at Edward Street Glossop, and the construction of 3 new dwellings. We live at 72 Edward Street and will be directly affected by this development as the proposed area is larger than the existing, it would appear that a window and door will be directly opposite our home and overlook one of our bedrooms This will massively affect our privacy and outlook.

There will be huge disruption with the demolition and building work and there are no parking spaces in the plans for the new homes which will impact on the already crowded on street parking situation in the area.

I fear that I have just missed the deadline for comments but urge that you take our worries into consideration. We are the only dwelling that will be directly and negatively impacted by this development.

Sincerely
Kelsey and Stephen Wright
72, Edward Street, Glossop.
