Comments: We live on Town Lane and regularly use High Lane from Simmondley, so we're familiar with the site and its surroundings. The existing building, currently finished in yellow render, stands out quite a lot in the landscape. Replacing or improving it with a structure finished in natural stone will make it much less visually prominent and more in keeping with the local character. We believe this will enhance the appearance of the area and contribute positively to the setting of the conservation area. We fully support the application.
