Retention of steel shipping container which has been converted into a food retail outlet

Applicant: Mr Rammo

HPK/2025/0080

I fully support this application. The container obscures the station in no way whatsoever, in fact, it only obscures a rather badly maintained wall and blends into the background.

This is the only Mexican food outlet in Buxton and has over 300 5-star reviews on Trip Advisor. It has now been operating successfully and peacefully for the past 18 months and provides refreshments for visitors to Buxton leaving and arriving by train. There is no other refreshment facility at the station. The Railway told Mr Rammo that he did not require planning permission.

I have it on full advice that he is scrupulous in his business dealings and does everything very carefully by the book. Mr Rammo is a refugee who wants to feed his family, does not want to claim benefits and is offering a valued service to the Buxton community and its rail travellers.
