Submission: Not Object

Comments: The building is currently sub-divided into 5 self-contained residential flats, with a separate office suite on the ground floor. The proposal is for the conversion of the office into a self-contained flat. The proposal involves very little external alteration, with the rear window serving the kitchen area being replaced with a sash timber window to match the existing windows. I consider that the proposal would have very little impact on the heritage interest of the building. In terms of use, conversion to residential would be consistent with the rest of the building and the predominantly residential character of the area. NO OBJECTION to either application.
