Submission: Objection

Comments: Negative Impact on Charlesworth Conservation area, even though just out of the area, the building will be an imposing feature dominating the landscape in an area with an important historical heritage..

Impact on local services e.g. water pressure

There has been inadequate assessment of the effect on wildlife in the area. e.g. winter bat roosting

Inadequate consideration of use of the trackway, which has previously not been part of Woodcock View.

Hazard to traffic flow down Monks Lane, on an already dangerous roadway. Implications for building work affecting/stopping use of roadway for a long period during construction.
