Comments: Whilst there have been a large number of houses and new housing developments in Glossop over the last few years there has been no increase in infrastructure to support these.

Traffic. Glossop is notorious for its traffic queues. I'm not sure the Mottram bypass and spur Road will do anything to reduce the traffic in Glossop itself and may even increase traffic.

As others have notes the local roads are busy at the best of times and with the potential of another 150/ 200 cars in the local area the junctions around the site would need major improvements.

Schools. Glossop is an attractive option for young families to relocate to and more careful consideration needs giving to Education facilities for a growing population.

Leisure. I note there was a plan to use this site for both a new Leisure facility and Medical facility. Glossop and the wider area need new facilities to help increase the health and opportunities of the local population. No new GP or Denist surgeries have been established in the last decade or so to support the new housing developments. This space and location are the ideal place for Glossop to benefit from such facilities.
