Submission: Objection

Comments: The drawings regarding access are not a true reflection of how close the river is to the neighbouring properties. At some points the distance between the river and the boundary of 114 -118 Marple road and 120 Marple Road is 2.4 meters wide. Plus this lane has washed away into the river at many points through the winter with rain water/ flooding from Marple Road. How can this lane be expected to take the traffic to the proposed dwellings not to mention the traffic to the development its self. There is no way that this lane could have any possibility of being a 2 way access road that is safe.

I have made this objection once before and never received a reply nor an indication that my objection was received.
