Good morning,

I am a resident at Heathfield Nook and should like to voice my concerns re proposal of 10 further Barratt Homes in a very small space at Burlow Rd.

The area is already congested at the junction by the railway bridge with poor visibility..there is a lack of space for the project right by a railway bridge.

I believe a community project for our local children's football club should be far more beneficial.

We strongly object to additional housing in a small space creating dangerous congestion in the area.

I look forward to hearing from you regarding this matter.

Regards Louise and Richard Turner..4 Flint Way .
