Submission: Objection

Comments: I object to this additional development proposal as I am in agreement with a couple of points already made by other owners in the local area. This new proposal does not rectify the issues identified in previous local objections raised. The development is already over developed and the infrastructure is already beyond max capacity as identified by the regular power failures suffered by locals in the area without response. The area is already congested with poor visibility on tight roads and a lack of public parking when community activities are taking place. The results from marketing survey regarding the creche or hall were not published or shared as part of the consultation.
