Submission: Objection

Comments: I have many issues with this planning. Including that more of my garden is being taken away which has already been reduced by over 50% just 18 months ago.

I have concerns that the garage which is going to be knocked down right next to my house contains asbestos, if it does this needs to be removed correctly as this could impact mine and my children's health as well as the general public.

It also appears some of my driveway is being taken away, so cars can turn on to the proposed site. which I feel could impact the safety of those in my household. As cars will essentially cut across my drive to come down the access road.

I also currently have no immune system after major health issues and practically living on a building site, really won't do me any good at all.
