Submission: Objection

Comments: I am objecting to this planning application, as the proposed new building will have a major affect on the view from our house because of the additional height, the new roof with skylights will add to the already high level of light pollution during the night.

If the factory is expanding, then they need to provide enough carparking spaces for their employees. It is often difficult to park during the week and evenings.

Additionally, I have attempted to get a response from the two companies who are based at Stephanie Works about damage caused to the walls from their lorries knocking them down, it would be curious of them to take responsibility for the damage and maintain the area around the factory, before they make changes, that will further disrupt the neighborhood.
