F.A.O. Planning Support, Customer Services

Hello,

Further to your letter of 17th November 2025 inviting comments regarding planning application number HPK/2025/0448, we would like to raise the following concerns.

- Potential increase to parking on High Hill Road, which is already a safety issue for pedestrians and drivers.
- Potential safety issue due to the access and egress to the site being on the curve of High Hill Road. This together with the volume of parked cars means drivers entering or leaving the site have very poor visibility of pedestrians and oncoming vehicles. Likewise pedestrians and drivers have poor visibility of traffic entering or leaving the site.
-

Regards, Rhian & Bernard Law
