Submission: Objection

Comments: MILLERSDALE STATION EXPANSION: to Public Car Park and incorporation of Cycle Hire in the proposed National Park Information Centre.

: The Car Park extension runs against the message that The Peak District National Park Authority generally conveys. The Park and Ride and leave your car at a designated site; Has often been up for discussion. With the increase in parking places it adds to pollution and congestion in an area that is about outdoor activities.

: The Cycle Hire application is however another matter. There are already two Cycle Hire businesses on The Monsal Trail. Both privately run companies that do a great service to the local community. Blackwell Mill Cycle Hire for example is a family run business that has for the last two decades put their heart and soul into building up a very successful and strong company with hard working staff.

The devastating impact caused by a powerful authority such as The Peak National Park, that is seeking to expand its horizons wherever it can.
