I am in agreement with this application for
7 Airbnb properties at 68 High Street West, Glossop
SK138bh

I think this would be very good for Glossop town Centre as it's very short of accommodation

As we are in the Peak District it would be very very good for people who wish to explore the recreational facilities in the high peak, it would also be beneficial because it would bring income into the local town for shops, cafés and the new market businesses
