Dear Mr Talbot, I understand you are dealing with a current application to change the usage at the above property. As a local resident I strongly support the application to convert the upper floors of this property to residential use. Too many people with family links to the town are unable to find accommodation here. If the owners feel that the only viable use for them is as holiday lets I would not object. I recognise that this would contribute to the support of all local businesses and be of a different but useful value to our community.

Regards

Susan Rodrigues
