

Proposed Elevations

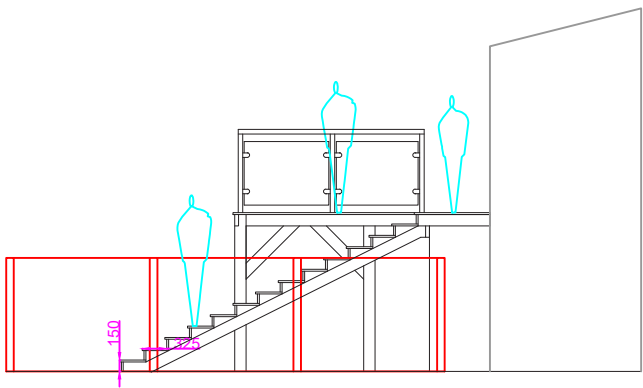

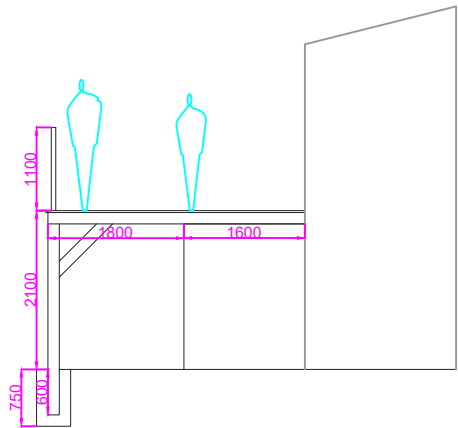

Above: Proposed raised decking with glass balustrade as seen from the northern boundary.

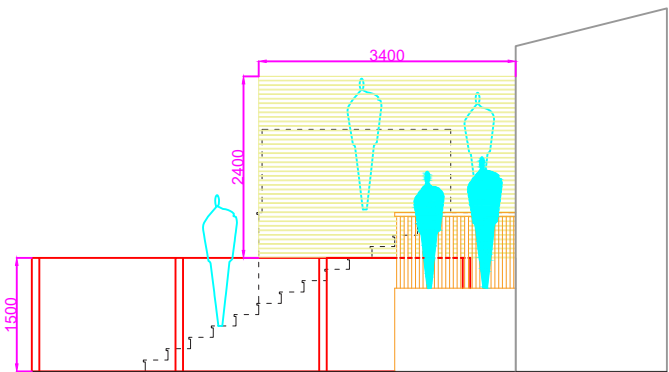

Above: Proposed raised decking with glass balustrade as seen from the West looking up the garden.

Below: Proposed raised decking with glass balustrade section showing extension beyond the existing raised stone platform

Above: Proposed raised decking with glass balustrade as seen from the southern boundary.

Above: Proposed raised decking with glass balustrade as seen from the southern boundary illustrating the use if a venetian screen. The screen could be trained with an evergreen Clematis armandii.

Right: The elevation also illustrates the neighbours raised deck and how it would interact with screening

Notes:
The blue outlines illustrate people of different average heights in the garden.
The large tree in the image is present in a neighbouring garden and its shape and height is accurate.
The red lines illustrate the height and layout of the boundary treatment fence.
