Comments: We have been informed of the planning application for 24 dwellings at miry meadow car park. We are concerned of the access entrance and exit which is not suitable for the amount of traffic. It will be difficult for emergency vehicles to access because of the present parking on station road down towards the coop, which will result in cars parking on the miry meadow estate which is already used by many cars. We don't believe there is enough infrastructure to cope with current population this can only prove to put extra pressure on the services ie doctors, schools etc. Station Road down towards the coop is an unadapted road and therefore not maintained by the council which in itself cause problems with traffic especially during winter months and snowfall very often leaving the residents on miry meadow stranded during this time. All this is very concerning especially losing more green space. There is a lot of wildlife and it has been noticed of Herons nesting and living on these fields I feel putting more homes down there will cause a great loss of the wildlife. I can't see the benefit if adding more houses on this field
