Submission: Objection

Comments: As a resident of Miry Meadow I wish to object to this application for a variety of reasons but most importantly the access road, particularly the point at which the the bottom of Station Road meets the entrance of the Coop Carpark and the Council Carpark. This road is not able to cope with the current levels of traffic as the narrowing of the road creates a pinch-point, that will only be worsened by the increase in the volume of traffic that this development will bring about. The road itself is currently unmaintained and worsening by the day, the resulting increase in traffic along with the contractors vehicles will no doubt make matters worse.

The loss of another green space in the town along with the impact on biodiversity on the site is also of great concern. Have the necessary studies been completed regarding wildlife, eg newts, frogs and toads in the pond area, along with species of wildflowers and trees, as their habitats will no doubt be lost along with the habitats, nesting and feeding areas for a number of bird species including herons.

In addition, the infrastructure of the town is already at breaking point and unable to support of existing residents without adding further new dwellings.

I trust my input will be considered favourably.
