Dear Sir/Madam,

I wish to formally object to planning application HPK/2026/0128.

Firstly, I am concerned that residents directly affected by this proposal were not properly notified. We did not receive any formal notification regarding the application, despite the significant impact this development would have on ourselves and many other local residents. Furthermore, the notice displayed was undated, and not all affected residents were informed by letter, which has not allowed a fair or reasonable opportunity for objections to be raised.

I strongly object to the proposed development for several reasons. The area is one of natural beauty, and the proposed housing would be out of keeping with the character and appearance of the surrounding area. The scale and positioning of the development would overlook existing properties, resulting in a serious loss of privacy for residents.

In addition, the proposal would further increase congestion in an area that already experiences significant traffic and parking issues with more through traffic. The development would place additional strain on local infrastructure and negatively impact the quality of life for current residents.

Overall, I believe this proposal would significantly alter the character of the area, adversely affect residents' privacy and amenity, and fail to preserve the nature and appearance of the local environment, nature and wildlife.

I respectfully request that these objections are fully considered when determining the application.

Regards
