Submission: Support

Comments: Thank you for the opportunity to comment upon this application. When enacted this proposal will improve the operations of the farm and improve the sustainability of the operation. Reduction in run off and reduced plastic use are aspects that we support. However, we note that there are well used public rights of way (namely Buxton FP26 and Buxton Bridleway 25) passing through the site. Although they will not be affected when the work is completed, they may well be whilst the work is undertaken. We would therefore ask that a condition is attached to any permission granted that they should remain open and safe to use at all times.
