Submission: Objection

Comments: As per my objections to the previous planning application put forward for this site, there will be significant disruption caused by demolition of old building and construction of the new. The road is not wide enough to accommodate large delivery vehicles and construction traffic, there is already parking on both sides of the road. Parking in the area is at a premium and this development will add add least 4 cars to the mix. My main concern is that our home will be significantly affected due to the fact that the new building will come over the existing building line and whereas we currently have just fencing directly across from the front of our house we will end up looking directly at, and into, a new build house. This will significantly impact on the way we live, being overlooked and having light and views blocked.
