Submission: Objection

Comments: Hi,

Please find below a list of my objections to planning application HPK/2026/0079

(1) This is an area of significant beauty and within the green belt, the current construction work underway and the proposal for 'stables' are not befitting or in keeping with the existing surroundings. If this application is allowed to succeed then it will lead to further eradication of an area famed for its outstanding beauty.

(2) The construction work current underway is leading to parking and access issues to the entrance to the cemetery and interfering in people's ability to pay their respect to loved ones

(3) Current construction work at the site and surrounding it is affecting people's ability to pay their respects within the cemetery as the noise and dust is contributing to a climate that does not support reflection or rest

(4) If the construction was allowed to progress, I'm concerned that people visiting the cemetery will be affected by users of this site as there is little parking in the cemetery as is and adding a business adjacent to the cemetery will only add to existing users in trying to park, this is especially true for holders of blue disabled badges

(5) The current access to the site is on a blind spot to busy road. I've witnessed several near misses with traffic at this site and increased usage from a new business will only make matters worse.

(6) Having looked at the current plans, I have significant concerns regarding the drainage of grey water to and from the site and affects this will have on surrounding areas in particular the cemetery

(7) There is a potential for the site to attract vermin and for those vermin to spread or use the cemetery as a place to habit (i.e rats). This has the potential to lead to significant environment and safety concerns within area not withstanding the effects on local wildlife

(8) The site is as far as I can tell free from amenities, i.e. running water and electricity. It's unclear how animal welfare can or could be maintained without them. The site requires the laying of services to support a business and animal welfare. I see no provision for this in the application
