Planning Consultation

HPK/2026/0278

Re your letter of 12 June.

Would you please ensure that the existing pedestrian right of way between Station Road (opposite the station) and the Springs north entrance is maintained both during construction work and when the building work is complete.

The footway is used by residents of Devonshire Place all of whom are over 70 years of age. My wife and I are both 92!

Yours faithfully
