Submission: Objection

Comments: I would again like to raise concerns over the fact that we have bats that use the 'access' to this land as a feeding area. The proposal implies the land stripe next to 21 Sumner Street is to be used for cars to enter the garages (although they do have permission to use this access for the land owners).

Bats from the church across the road use this area to feed everyday at dusk and fly down close to the ground. I am very concerned of risk to these bats from any work which happens and the use of this strip of land for cars (currently, no cars use this land).

Please can this be reviewed urgently as these are a protected species.
