

I am writing to voice my concerns regarding the proposed building of two houses on the land Adjoining my property. I have lived here for over 40 years, and have enjoyed the wildlife here.

As I feed the birds, I ~~also~~ get the hen pheasants in my garden quite often and sometimes the cock pheasants. I have also seen hares in the field behind my house.

There is also the matter of access to 106 . There are many cars and vans parked on this road at all Times, which makes it difficult to see what traffic is on the road.

With building still going on in Harpur Hill, and many of those houses vacant, there is also the Proposed accommodation in Spring Gardens.

110 Macc. Old Rd.
