Submission: Objection

Comments: We have no objection to the reinstatement of original features, but we are very concerned that replacing the ground floor windows with large single panes of glass would be out of keeping with the original character of this very prominent building. We recommend that the application is not approved as submitted but that an alternative design is sought, based on research to establish what the original window pattern would have been and to use this to inform a revised scheme which restores the historic appearance of the building.
