LBS Windbreak Netting

QUANTITY DISCOUNT

LBS Windbreak is manufactured from a knitted polyethylene monofilament, which can be used as either a shade net or windbreak. Its main benefits and characteristics are:

- Weatherproof protection against sun, wind and even heavy hail damage. Will withstand heavy wind, abrasion, and is UV stabilised.
- Strong, tear resistant netting. Due to the round section threads the netting is fully locked-stitched to prevent unravelling.
- Manufactured to provide a reliable and long-lasting cover.
- Suitable for open areas, glasshouse shading and reducing heat loss in greenhouses (between 5-7%) representing significant savings on fuel costs.
- Available in aesthetic green.
- 1m, 1.5m and 2m come complete with eyelets for easy fixing onto straining wires, and joining together.
- Ideal for use in side ventilation systems.
- Ideal for scaffolding net.

Rolls may be mixed to receive quantity discount.

fabrication of netting...

LBS have their own specialised fabrication department. We can fabricate net into most shapes or sizes that you may require. We are able to insert ropes, attach eyelets and strengthen edges, for all manner of applications. For example, ridge nets, fish tank covers, turf protection sheets, water storage tank nets, side ventilation systems, etc. Please ring us on 01282 873333 with your specifications for a quotation.

sewn net covers...

We can manufacture net covers to meet all your requirements.

Ref	Shade Value	Price Per m ²
SNC01	40%	£1.05
SNC03	45%	£1.15
SNC02	50%	£1.33

Shade Netting

This UV stabilised netting is manufactured from long-lasting HDPE tape monofilament threads. The semi-lockstitch construction reduces the risk of unravelling.

This netting is particularly suited for shading applications, as the wider tape threads reduce light transmission through the material.

55% Net = 90gm/m²

70% Net = 100gm/m²
