FILE REF.
REPLY REQUIRED

- Note**
Signage contractor to confirm opening times and store offers prior to manufacture of signage.
- Signage contractor to obtain all dimensions prior to manufacture of signage and to ensure all mullions and transoms do not obscure text.
 - All brand signage dimensions to be confirmed with Tesco design manager prior to manufacture.
 - Canopy to be updated to current design standard.
 - Pump leader sign panels to be updated.
 - Kiosk blinds to be updated to current design standard.
 - All steelwork & woodwork to be re-painted white RAL 9010.
 - Steam clean PFS forecourt & tank fill area.
 - All canopy lighting to be cleaned / repaired & relamped.
 - Drains & grating to be cleaned & repaired.
 - U/S of canopy to be finished white RAL 9010.
 - Brick pavers around PFS to be repaired or replaced if damaged.
 - Tank fill area to be realigned.

Pump leader signs to be updated to design standard on existing hoops. All pump crowns to be replaced. New 24hr headers to be installed over 24hr pumps. All pumps to have updated pump stickers and pump signage. Vinyls are to be installed to bottom of all pumps. Install 'Pay at Pump' vinyls to all pumps apart from 24hr pumps. Apply 24hr vinyls to bottom of 24hr pumps.

PFS Canopy & Kiosk Fascia to be updated to align to current design standards.
